Road Supervisor's Office, September 4th, 1871.

The Customs Laws, as administered in San Francisco, seem to be adapted in a peculiar manner to the promotion of the trade and industry of that city. It will not be forgotten that we placed before our readers some time since the fact that the United States Government charged a duty of six dollars per pound on opium shipped at Hong Kong for here by steamers subsidized by the American Government. The result of that operation has been that Mr. Afong, the owner of the opium, not being willing to pay this extra duty, has ordered it to be sold in San Francisco. As we said before, opium with us is not a favorite article, but we called attention to the principle that the United States Government seemed desirous of establishing.

Another instance has arisen lately which seems to be worthy of being pointed out. Our Board of Education having some seven thousand books to bind, asked for proposals from the San Francisco binders. One firm proposed to bind them for 12 cents per volume, but it was found that His Majesty's Government would be obliged to pay 25 per cent. on the cost of the book here in duties. The binders, naturally desirous of obtaining so good a job, applied to the Department at Washington to see if they could not be allowed to retain the books in their hands long enough to bind them, on giving proper assurances and securities that they were to be sent to Honolulu, but could not obtain the permission. The paper that the books were printed on had been purchased in the United States, and the books were in the Hawaiian language, and it was apparent upon the face of it, that they could not be used in that country.

There are some other instances which have come to our knowledge, (upon which we may comment hereafter,) indicative of the obstructions to intercourse and trade, taking place at San Francisco. The following is the correspondence on the subject.

SAN FRANCISCO, Sept. 26, 1871.

Sir: The Hawaiian Government have applied to us to ascertain upon what terms printed sheets and books to San Francisco to be bound, and returned to Honolulu, will be admitted into the United States.

The articles referred to are 7,000 copies of a school book printed in the Hawaiian language, for the use of the public schools of that nation.

We desire the permission of the Secretary of the Treasury to export the bound books man-

factured from imprinted material for the benefit of drawback, or permission (under the Act of Feb. 18, 1859, which authorizes the importation of machinery only, free of duty) to receive these sheets and to give bond for the exportation of the said articles when put in order and made fit for use.

The case is peculiar, inasmuch as there are no facilities for binding books at Honolulu, while here the sheets or books would be of no value.

Yours, very respectfully,

A. L. BANCROFT & CO.
